SUMMARY

Front-End Developer (React) with hands-on experience building real-world, responsive web applications. Skilled in translating UI/UX designs into clean, reusable React components, managing application state, and integrating APIs. Strong background in collaborating within cross-functional teams, with a focus on writing maintainable code and continuously improving front-end performance and user experience.

EXPERIENCE

Frontend Intern

SMART BLOCKS

📅 04/2025 - 09/2025 📍 Amman, Jordan

- Developed and maintained internal front-end features for web applications using React.
- Built interactive UI components using React and reusable component patterns.
- Optimized React components for better performance and scalability.
- Debugged and troubleshooted UI issues to ensure smooth user experience.
- Collaborated with designers to implement responsive UI/UX designs.
- Applied core React concepts such as state management, event handling, and basic API integration.
- Collaborated with team members to implement UI updates and improve usability.

Customer Support

SMART BLOCKS

📅 04/2023 - 04/2025 📍 Amman, Jordan

- Set up and managed customer support workflows using Freshdesk and Freshchat.
- Collaborated with technical teams during platform development, testing phases, and downtime.
- Gained hands-on exposure to QA fundamentals, including testing flows and reporting issues.
- Ensured KYC compliance and handled complex user issues in a fintech environment.
- Key Achievement:** Built a structured knowledge base that reduced repetitive support requests and improved response efficiency.

Customer Service Team Leader

Lightic

📅 01/2022 - 03/2023 📍 Irbid, Jordan

- Co-founded the company and built customer service operations from the ground up.
- Led and mentored a support team while managing daily operations and performance.
- Optimized internal workflows through data analysis and process improvements.
- Improved customer satisfaction and reduced response times through structured procedures.
- Key Achievements:** Increased customer satisfaction by 20% and reduced response time by 30%.

EDUCATION

Bachelor's Degree in Civil Engineering

Al al-Bayt University

📅 09/2016 - 02/2021 📍 Al Mafrq, Jordan

- Graduation Project: **Design of a four-story residential building** (Grade: 91%)

GPA

76 / 100

SKILLS

TECHNICAL SKILLS

HTML, CSS, Tailwind CSS, Bootstrap, Responsive Design, CSS Grid / Flexbox, JavaScript (ES6+), DOM Manipulation, Event Handling, React (Hooks, Components, Props, State), React Router, Redux (basic), Next.js (basic), Git & GitHub, VS Code, Chrome DevTools, Jest, React Testing Library (basic)

Soft Skills

Problem Solving, Adaptability, Communication, Self-Learning / Continuous Improvement, Team Collaboration, Attention to Detail, Time Management, Creativity / Initiative

PROJECTS

Food Order App (React)

🔗 <https://food-order-app-9ef78.web.app/>

A single-page food ordering application built with React that allows users to browse meals, manage a cart, and place orders. The project uses a component-based architecture with React Hooks and Context API for state management, integrates REST APIs, and focuses on clean, reusable UI components and efficient rendering.

Task Management App (React)

🔗 <https://task-management-26d00.web.app/>

A task management application built with React and Tailwind CSS that enables users to create projects and manage tasks within each project. The application highlights structured component design, state-driven UI logic, and dynamic rendering without relying on external APIs.

Tic-tac-toe game (React)

🔗 <https://tic-tac-toe-58d3a.web.app/>

A browser-based game developed with React to demonstrate state management, props usage, and conditional rendering. The project focuses on clear game logic, reusable components, and responsive UI updates.

COURSES & CERTIFICATIONS

React – The Complete Guide (Udemy, 2025)

Hands-on React course focused on building real-world applications using components, hooks, routing, state management, and API integration.

McKinsey Forward Program – McKinsey & Company

Business and digital skills program covering problem-solving, critical thinking, data analysis, and effective communication.
